

GREEN MEETINGS

Check out ways we can help you plan your **Green Meeting**:

AT THE EVENT

- 🌿 **Paper Free Environment:** Don't print paper copies, use our electronic options (screens/projectors) instead
- 🌿 **Service Ware:** All services ware will be reusable, compostable or recyclable
- 🌿 **Food Digester:** we can ensure all food waste will be composted in our onsite food digester
- 🌿 **Recycling:** We will set up a waste station so that sorting is made easy (we recycle all glass, aluminum, paper cardboard & plastic)
- 🌿 **Refreshment Stations:** Refreshments (water, coffee, tea, soda, etc.) will be set up at stations using reusable glassware instead of plastic/disposable containers
- 🌿 **Say No to Straws:** During the event straws will only be given out when asked for to minimize plastic consumption

STAYING OVER NIGHT

- 🌿 Participate in our "Opt-Out" of housekeeping program and receive a free drink (this minimizing the environmental impacts of housekeeping such as excessive laundry)
- 🌿 All rooms feature environmentally friendly amenities such as bulk soap, shampoo and conditioner

OTHER

- 🌿 Carpool shuttles - minimize impact of traveling from airport
- 🌿 Working with our Culinary Team, we can select local and sustainable food options
